Addendum # 1

RFP # 7323249: Web-based Portal for Educational Recruitment

Submission Deadline: 23 Nov 09 @ 2:30 PM (Eastern Time)

QUESTION #1: I have a quick question regarding this portal...will there be a security component i.e. users authenticating to get access into the portal? If so, will it be standard static ID/password OR will it require enhanced authentication?

We are a software security company with a device-less approach to authentication that is ideal for portals.

Answer: We would expect proposals for this project to be comprehensive and include the appropriate security measures. We have not mandated a specific security option and are open to different options.

QUESTION #2: We see that the cost proposal section says that costs must fall within the range below, up to \$150,000. Do you have more specific information about the available funds?

Answer: As a result of revised budget projections, we expect to have up to \$125,000 available for this project. Potential bidders should prepare a budget for this project that is \$125,000 or less.

Jerome D. Moynihan, C.P.M., CPPO
Administrator of Purchasing Systems
